Dear Representative Fisher:

We care about the widespread evidence of racial bias in our criminal justice system, including our death penalty system. Recently in the space of a few months, three men were released from death row here in North Carolina because they are innocent. They are all black. Something's terribly wrong.

The least we can do is pass the Racial Justice Act in its strongest form. Thank you for co-sponsoring HB 472. Please continue supporting it and please ask your colleagues to join you in supporting it. No one should be sentenced to die because of the color of his/her skin or the victim's skin color.

Sincerely,

The Peace and Earth Committee
